EXPERIENCE

Frontend Developer

Dec 2023 - Mar 2024

Innovius Software

Ahmedabad, Gujarat

- Developed responsive websites using HTML5, CSS3, Bootstrap, and JavaScript, ensuring seamless user experiences and optimized performance across devices.
- Built dynamic Single Page Applications (SPA) with React.js and Tailwind CSS, focusing on fast UI development and efficient styling.
- Managed version control and project workflows using Git, ensuring smooth collaboration and deployment from development to production.

PROJECTS

MolVerse. Developed a platform for molecular science, enabling users to visualize structures, create custom molecules with SMILES, and collaborate in real-time. Designed for researchers and developers, it simplifies molecular research with a user-friendly, responsive interface for seamless innovation. [\[GitHub Repo\]](#) — [\[Live Demo\]](#)

ByteBoard. Built a multipage website showcasing hardware services and products with clarity. Used HTML5, CSS3, Bootstrap, and JavaScript to create a clean, modern layout with intuitive navigation. Delivered a responsive, user-friendly platform for exploring innovative hardware solutions. [\[GitHub Repo\]](#) — [\[Live Demo\]](#)

ReadSpace. Designed a clean, responsive landing page showcasing books, special deals, and collections. Focused on simplicity and seamless browsing using HTML5, CSS3, and JavaScript. Delivered a polished, user-friendly platform to enhance engagement and attract book lovers. [\[GitHub Repo\]](#) — [\[Live Demo\]](#)

CERTIFICATIONS

GitHub Foundations. Awarded by GitHub, validates expertise in foundational GitHub usage for version control and collaboration. This credential highlights proficiency in creating and managing repositories, handling branches, resolving merge conflicts, and leveraging GitHub Actions for automation and CI/CD workflows.
