EXPERIENCE

Frontend Developer

Dec 2023 - Mar 2024

Innovius Software

Ahmedabad, Gujarat

- Developed responsive websites using HTML5, CSS3, Bootstrap, and JavaScript, ensuring seamless user experiences and optimized performance across devices.
- Built dynamic Single Page Applications (SPAs) with React.js and Tailwind CSS, focusing on fast UI development and efficient styling.
- Managed version control and project workflows using Git, ensuring smooth collaboration and deployment from development to production.

PROJECTS

The FlexFlow. Built a custom WordPress website for a marketing agency overwriting a pre-designed theme. Focused on clean design, fast performance, mobile responsiveness, and SEO. Helped establish their online presence and effectively showcase their services and portfolio to potential clients. [\[Live Demo\]](#)

Serval Films. Designed and developed a minimalist, artistic website for a stop-motion animation studio. The site showcases their handcrafted films, unique techniques, and creative philosophy. Focused on visual storytelling, smooth navigation, and responsive design to enhance their digital presence and attract clients in the film and creative industries. [\[Live Demo\]](#)

AHM Mobile Store. Created a fully functional eCommerce site using Wix Editor for a brand selling mobile accessories PAN India. Included product listings, secure payment gateway, and a clean, responsive layout. Helped the business scale online, improve customer experience, and increase visibility and revenue through a strong digital storefront. [\[Live Demo\]](#)

CERTIFICATIONS

GitHub Foundations. Awarded by GitHub, validates expertise in foundational GitHub usage for version control and collaboration. This credential highlights proficiency in creating and managing repositories, handling branches, resolving merge conflicts, and leveraging GitHub Actions for automation and CI/CD workflows.
